

ASSET Final Event

15 April 2021

9.30 to 12.55 CET
Online

Programme Description

After two years of activity, the ASSET project – A holistic and Scalable Solution for research, innovation and education in Energy Transition is inviting its wider stakeholder community to join the project's Final Event on 15 April 2021.

In these two years, the project has been in touch with students, researchers, industry representatives, policy makers and civil society from all over Europe by setting up and animating a valuable ecosystem of interactions. ASSET has identified the gaps in education, research and innovation for energy transition and delivered comprehensive material to reduce those gaps.

The event will take place online and will include presentations from project partners, external speakers and representatives from the European Institutions on the results achieved by the project and how they can benefit energy stakeholders. A panel discussion will tackle the topic of what to expect for energy transition education in the coming years, where the audience will be asked to interact by replying to poll questions.

Format

Online event on Zoom Meetings, from 9.30 to 12.55 CET.

Funded by the Horizon 2020 Framework Programme of the European Union under Grant Agreement n. 837854
