

EMMES 6.0:

Can Europe meet 2030 REPowerEU targets without a storage strategy?

Date: Tuesday, 14 June 2022, 11:00 – 12:00 (CEST)

Location: Online – [GoToWebinar registration link](#)

Delta-EE and EASE (European Association for Storage of Energy) are publishing our 6th annual Market Monitor for Energy Storage which holds the most extensive database on European energy storage projects. The database includes detailed data on current installations for all three customer segments (residential, C&I and front-of-meter) across 24 European countries, future projects and forecasts to 2030.

Agenda

11:00	<p>Welcome and Context, Introduction to DELTA-EE <i>Andy Bradley, Director of DELTA-EE</i></p>
