

ENERGY STORAGE

Global Conference

BRUSSELS, 10 - 12 October 2023

CALL FOR PAPERS

Submission deadline:

3.03.2023

Call for Papers

Scope

The Energy Storage Global Conference 2023 (ESGC), organised by the European Association for Storage of Energy (EASE), will be held in Brussels on 10-12 October 2023, and will gather representatives from around the world to discuss energy storage policies, markets and technologies.

The ESGC attracts manufacturers and suppliers, EU institution representatives, utilities, associations, national government representatives, project developers, consultants, investors, regulatory authorities and researchers.

Policy Day

Gain in-depth information about the Electricity Market Design, the US Inflation Reduction Act and EU subsidies for energy storage, critical raw materials and more.

Market Day

Discuss best practices and trends from around the world and identify more opportunities in opening markets for investments in energy storage.

Technology Day

Learn more about recycling and repurposing in the energy storage sector, explore the fields of energy data sharing and thermal energy storage, and discover the latest innovations with leading experts.

We are looking for experts, game-changers, entrepreneurs, innovators, government officials, universities, R&D centres, associations and organisations with the most ground-breaking ideas, initiatives, solutions and projects.

This call for papers will provide authors with the opportunity to gain a speaking slot at the Energy Storage Global Conference 2023.

Highlight your research or work and boost its visibility within the energy storage community!

Have a question?

Contact us at conference@ease-storage.eu.

Please note that the conference will be livestreamed and the recordings made available for participants on the event website.

Topics

Topics related to the conference's core theme (energy storage) include, but are not limited, to the following:

- Energy Market Design
- Critical Raw Materials
- Energy Taxation
- Hydrogen Bank
- Subsidies for the energy transition

- Global drivers – project perspectives from around the world
- Opening markets
- Repowering Ukraine
- Novel business cases
- Energy storage and the greening of corporate fleets
- Novel PPAs contractual solutions

- Repurposing and recycling
- Data sharing
- Thermal energy storage

Submission deadline:

Friday, 3 March 2023

Submission guidelines:

All papers must be submitted electronically, in PDF format and sent to conference@ease-storage.eu.

Please submit your paper's abstract/summary - between 1 and 6 pages in length.

Evaluation criteria:

The EASE Secretariat will select, from among the submissions received, those that it considers most suitable for the ESGC 2023 programme, based on the following criteria:

- Relevance vis-a-vis current regulatory, business, and technology challenges
- Innovation/originality
- Impact on business goals
