

UNIFYING THE VOICES OF HYDROPOWER

BRUSSELS HYDROPOWER DAY

**25th April 2023,
Brussels and online**

The added value of the hydropower sector as a catalyst and enabler in the clean and safe energy transition within the energy crisis

We are pleased to announce the 1st annual Brussels Hydropower Day.

Pencil the **25th April 2023** into your calendar and join us for this hybrid conference that will be held in Brussels at the Residence Palace and also streamed online.

The BRUSSELS HYDROPOWER DAY 2023 aims to provide a platform for stakeholder groups in the hydropower sector and decision makers in the European Commission and Parliament, who are working on relevant policy files concerning hydropower. The purpose is to discuss opportunities and barriers affecting hydropower deployment in the framework of the energy transition within the energy crisis and the market as well as regulation conditions.

**Funded by
the European Union**

Why attend?

- Find out more about the added value of hydropower and energy storage in the energy transition, within the energy crisis and regulation conditions.
- Learn about best practice in hydropower deployment with reference to electricity market design, flexibility and biodiversity requirements.
- Join the discussion about cooperation with other ETIPs/sectors within the SET Plan on approaches to ensure energy system integration and a flexible safe energy supply.
- Get informed about the next steps of ETIP HYDROPOWER towards “Unifying the voices of hydropower in Europe”.

The conference will gather participants, representing wide stakeholder groups in the hydropower sector and decision-makers in the European Commission and possibly European Parliament working on relevant policy files concerning hydropower.
